Bouquets and Buckets

At Firth Flock Flowers, We Are All About Sustainable Flowers For Local Couples

We create one of a kind floral arrangements inspired by the seasons. Our blooms are a world away from generic bouquets filled with imported flowers. They are unique, seasonal and organically grown in the Firth Flock garden – packed with variety, texture, freshness, scent and the best of British. We specialise in cultivating heritage, traditional, and unusual varieties prized for their fragrance and floral design qualities.

Whether you want feminine and pretty or bright and bold– we deliver to give you the wedding flowers you've dreamed of!

We strongly believe you shouldn't have to sacrifice beauty to be sustainable. We offer the most gorgeous, show-stopping floral designs without harming the earth – we are a fully organic and foam free florist, opting for natural materials and re-usable mechanics.

In keeping with our ethos, if we ever need to source flowers, we only support other British organic farms. This gives us the freedom to create something truly unique at any time of year, while also reflecting the beauty of each season.

Our bouquets and buckets service is our most flexible option for couples eloping, and with smaller, intimate weddings. Perfect for those who may want to **DIY some of their flowers** or those on a budget, and has **no minimum spend requirements**

We are here to guide and support you each step of the way. Our pricing is transparent, so you have the ability to create your own custom flower package while staying within your budget.

Please don't hesitate to reach out if you have any questions, no question is too small or silly. You can contact us at firthflockflower@icloud.com or on 07714 446091

We look forward to working with you...

Delivery, Set Up & Collection

Decide whether you'd like us to deliver your florals directly to your home / venue or if you prefer to collect them from the farm

Delivery & Setup is charged and calculated accounting for milage and time, and will be quoted after the initial consultation when delivery locations are discussed

Buckets can be collected a day or two before the wedding to allow you time to create with them. While bouquets and personal flowers can be collected the day before your wedding

Our "Bouquets & Buckets" service empowers you to create a wedding floral package that is totally flexible and unique to you, ensuring that your wedding blooms are as exceptional as your love story.

If you are picking up your flowers...

Your order will be packaged and clearly labeled, ready and waiting for you pick up from the farm near Ruthin, North Wales. Your flowers will be in buckets of water/vases, so no need for you to bring your own containers. All the flowers will be packaged in fully compostable materials.

Flowers should be transported in an air-conditioned vehicle such as a van or an SUV with the seats folded down flat. Flowers cannot be transported in the back of an open-bed pick up truck.

We will finalise the pick up time with you three weeks before your wedding.

Once you have picked up your blooms, store them in a cool place, out of direct sunlight, and add extra water to the buckets as needed until you are ready to arrange/display them.
